

APNEARx[®]

Micro-Adjustable Sleep Apnea Appliance

**Sleep better... live better with the only easy-to-use,
affordable, precision-calibrated oral appliance**

SLEEP BETTER... LIVE BETTER

APNEARx[®]

Micro-Adjustable Sleep Appliance

Meets Sleep MD Practice Guidelines and New Medicare Product Standards

Oral appliances are recommended by the American Academy of Sleep Medicine as a first line therapy for mild to moderate sleep apnea and CPAP intolerant patients. ApneaRx is the ONLY boil & bite oral appliance that can be easily adjusted by the patient in one millimeter increments (without nuts, bolts, screw driver, etc) as dictated by the new Medicare Product Standards. ApneaRx gives the patient an affordable, easy to use, comfortable and clinically effective transition therapy for sleep apnea.

Key Features

Comfort-Fit™

Thermally molded to patient's mouth in 10 minutes.

V-Flow™

Assures full air flow and device alignment for stability and better fit.

Advanced Design

Simple unaided mechanism to adjust and maintain jaw position.

Micro-Fit™

Easy to read one millimeter jaw adjustment for more comfort and clinical efficacy.

Posi-Lock™

Jaw position can be set and relocked at anytime

Why ApneaRx for Sleep Apnea Patients

- Provides the benefits of a dental quality oral appliance at a fraction of the cost.
- Only affordable oral appliance that can be easily adjusted by one millimeter increments without nuts, bolts, screw driver, etc.
- Alternative transition therapy if CPAP is not wanted, needed or can not be tolerated.
- Complimentary alternative to CPAP for frequent travelers and patients with respiratory problems.
- Affordable choice for patients without insurance or with high deductible plans.
- Good solution for snoring patients that do not have sleep apnea.
